“To be Bayesian, or not to be: that is the question in the social sciences”

Villa del Grumello, Como

9th June 2015 – 5.30 pm

A seminar by

Prof. Jeff Gill

Washington University in St Louis

“In this talk I will outline the basics of Bayesian inference, discuss why quasi-frequentist approaches fail in the social sciences, and give some examples of Bayesian data analysis. The emphasis is on general concepts and statistical intuition rather than mathematical details.”
