

Ing. Ettore Lanzarone, PhD

Department of Management, Information and Production Engineering
University of Bergamo, Dalmine (BG), Italy

www.ettorelanzarone.it

ettore.lanzarone@unibg.it - @cnr.it - @polimi.it - @cirrelt.ca

Education Born in Milan, Italy, in 1979. He obtained his Ph.D. in bioengineering in June 2008 at Politecnico di Milano, his master degree in biomedical engineering cum laude in April 2004 at Politecnico di Milano, and his scientific high school degree in July 1998 (mark 60/60).

.....

Affiliations and titles He is an associate professor at the Department of Management, Information and Production Engineering of the University of Bergamo, Dalmine (BG), Italy, since October 2023. Here, he is responsible for the orientation and member of the study plans committee of the Degree Program in *Ingegneria per la Salute*.

He is member of the faculty of the PhD in Health and Longevity at the University of Bergamo, Bergamo, Italy, since March 2025.

He is member of the Centre Interuniversitaire de Recherche sur les Reseaux d'Entreprise, la Logistique et le Transport (CIRRELT), Montréal and Quebec City, Canada, since 2016.

He has been co-founder and member of the β -Lab (Laboratory of Biomechanics for Endovascular Treatments of the Aorta), belonging to Università degli Studi di Pavia, CNR-IMATI and Policlinico San Donato, until transferred from CNR to Unibg.

He is a research collaborator at the Institute for Applied Mathematics and Information Technology "E. Magenes" (IMATI) of the National Research Council of Italy (CNR), Milan, Italy, where he worked as a researcher from 2011 to 2020.

He holds the National Scientific Habilitation for the role of Full Professor of Bioengineering (sector 09/G2 - since 2024) and of Operations Research (sector 01/A6 - since 2022), obtained from the Italian Ministry of Education, University and Research.

He is on the board of directors of the Milan province section of the *Associazione Volontari Italiani del Sangue* (AVIS) since 2025, and of the Milan municipality section from 2021 to 2025. He is on the board of directors, vice president and founding partner of the association

Amici di Casa Nazareth since 2021.

Memberships

He is member of the Italian National Bioengineering Group (GNB), of the EURO Working Group on Operational Research Applied to Health Services (ORAHHS), of the European Network for Business and Industrial Statistics (ENBIS), of the European Society of Biomechanics (ESB) in some years, of the Associazione Italiana di Ricerca Operativa (AIRO) in some years, and of the Italian Association of Mathematical Engineers (AIM).

.....

Research activity

His research activities focus on three main areas:

- **Bioengineering**
The research deals with mathematical models (mainly optimization and stochastic approaches) applied to bioengineering problems, e.g., the study of the cardiovascular fluid-dynamics and the biomedical image analysis. Technological solutions as 3D printing support these activities.
 - **Optimization and operations research**
From a theoretical point of view, the research is first focused on robust and stochastic optimization approaches to include data uncertainty in the optimization process. Then, the research is focused on decomposition approaches and meta- and mate-heuristics. Applications are in health care (e.g., home care, blood donation system, ambulance location) and manufacturing industry (scheduling).
 - **Stochastic models**
The research is focused on health care and stochastic differential equations, while both Bayesian and frequentist approaches are used from the methodological point of view. The first topic deals with modeling the evolution of patient conditions and demand for care in several health care facilities (e.g., home care, blood donation system, ambulances) to get the uncertainty characterization to be used in the optimization problems. The second topic refers to parameter estimation in complex dynamic systems (e.g., for medical problems) described by ordinary or partial differential equations.
-

Previous affiliations and activities

From October 2020 to September 2023 he was a tenure track professor (*ricercatore di tipo B*) at the Department of Management, Information and Production Engineering of the University of Bergamo, Dalmine (BG), Italy

From November 2011 to September 2020 he was a researcher at the Institute for Applied Mathematics and Information Technology “E. Magenes” (IMATI) of the National Research Council of Italy (CNR), Milan, Italy.

He was an adjunct professor at the Politecnico di Milano, Milan, Italy, for several courses mainly at the Department of Mathematics.

He was a research fellow (*assegnista di ricerca*) at the Department of Mechanics of Politecnico di Milano, Milan, Italy, working on the following projects: *ADI-Plan: metodi e strumenti per la pianificazione ed il controllo delle risorse nelle reti di assistenza domiciliare integrata* from January 2011 to November 2011; *Analisi e progettazione dei sistemi logistico-organizzativi per l'erogazione di servizi socio-sanitari nel territorio* from April 2008 to September 2010.

He was a collaborator at the MUSP Consortium (*Consorzio Macchine Utensili e Sistemi di Produzione*), Piacenza, Italy, from October 2010 to January 2011, and collaborator at the Department of Mechanics of Politecnico di Milano in March 2008.

During the Ph.D. period (March 2005 - February 2008) he worked at the Bioengineering

Department and the Laboratory of Biological Structures Mechanics, Politecnico di Milano, Milan, Italy (*tutor Prof. Roberto Fumero*).

From July 2004 to May 2005 he performed the Compulsory Civil Service in replacement of Military Service at Casa di Nazareth.

.....

Lectures and seminars

Invited talks:

- E. Lanzarone. **Data-driven dynamic nurse-to-patient assignment problem in home care: an implementor-adversary robust framework**. Workshop on Data-Driven Dynamic and Robust Resource Management, Heilbronn, Germania, March 7-8, 2023. Invited lecture.
- E. Lanzarone. **Addressing uncertainty in health care with the cardinality-constrained approach: a tradeoff between accuracy, computational effort, and interaction with clinicians**. Plenary Tutorial Speaker at the 41st Conference on Operational Research Applied to Health Services (ORAHS 2015), Montréal, Canada, July 19-24, 2015.
- E. Lanzarone. **Stochastic parameters estimation in dynamical systems from observations: general framework and applications**. First Joint International Meeting RSME-SCM-SEMA-SIMAI-UMI, Bilbao, Spain, June 30 - July 4, 2014. Invited talk for session Model Order Reduction and Highly Demanding Applications. Abstract book; 299.
- E. Lanzarone, S. Pasquali, V. Mussi, F. Ruggeri. **Bayesian estimation of thermal conductivity and temperature profile in homogeneous masses**. Eighth Workshop on Bayesian Inference in Stochastic Processes (BISP8). Invited young researcher (abstract BISP8.13).
- E. Lanzarone, M.L. Costantino, G. Faggian. **Continuous vs pulsatile flow in CPB: NO production and its implications**. Invited lecture at ESAO winter school 2008; Cortina d'Ampezzo (Belluno, Italy), March 2008.

Schools:

- E. Lanzarone. **Gestione Operativa a supporto della sanità territoriale**. Lecture within the school "Innovazione manageriale in sanità" of the *Accademia per il Management Sanitario* of the University of Genoa, Genoa, Italy, April 21, 2023.
- A. Remuzzi, E. Lanzarone. **Cyst and kidney segmentation in experimental polycystic kidney disease**. Presentation at the TrainCKDis Workshop on Imaging Analysis, Mario Negri Institute for Pharmacological Research, Bergamo, Italy, November 21-22, 2022.

- E. Lanzarone. **I modelli matematici della circolazione sanguigna**. Lecturer at the Summer School “Matematica e Scienze della Vita: modelli e algoritmi della salute” organized by the University of Bergamo, September 5-7, 2022.
- E. Lanzarone. **Blood donation towards service delocalization: new models and new challenges**. Lecturer at the EURO Winter School “OR in Public Health Emergencies” (ORPHES), January 10 - February 25, 2022.

Seminars:

- **New scheduling problems in the the health care sector: the in-hospital 3D printing service**. Seminar at the Technology Campus of KU Leuven, Ghent, Belgium, July 5, 2023.
- **A decision support tool for scheduling blood donation appointments at the collection center or at donor’s home**. Seminar at CNR, Institute for Systems Analysis and Computer Science (IASI), Rome, Italy, January 31, 2023.
- **Scheduling appointments for blood donation: from donations at the collection center to home blood donation**. Seminar at the University of Pavia, Pavia, Italy, November 9, 2022.
- **Operations research applied to health services: from theory to practice**. Seminar at the Politecnico di Milano, Milan, Italy, May 12, 2022.
- **Mathematical approaches for bioengineering**. Seminar at the University of Pavia, Pavia, Italy, May 2, 2022.
- **An implementor-adversary robust framework for the nurse-to-patient assignment problem in home care with dynamic reassignments**. Seminar at CNR, Institute for Systems Analysis and Computer Science (IASI), Rome, Italy, November 24, 2021.
- **An implementor-adversary approach to consider uncertain and temporally correlated patient demands in the home health care robust nurse-to-patient assignment problem**. Seminar at the Technology Campus of KU Leuven, Ghent, Belgium, February 24, 2020. Seminar at KU Leuven, Department of Information Management, Modeling and Simulation, Bruxelles, Belgium, February 25, 2020.
- **Lumped parameter models of the cardiovascular system and design of an in-vitro mock loop circuit of the arterial circulation**. Seminar at the University of Pavia, Pavia, Italy, May 21, 2019.
- **A blood donation appointment scheduling**. Seminar at the Université Laval, Faculty of Business Administration, CIRRELT, Quebec, Canada, February 11, 2019.
- **Application of the cardinality-constrained approach to address problems in healthcare activities planning**. Seminar at the Université de Montréal, CIRRELT, Montréal, Canada, May 20, 2016. Seminar at the Université Laval, Faculty of Business Administration, CIRRELT, Quebec, Canada, March 24, 2016.
- **Applying Operations Research from Theory to Practice: examples from Health Care Services**. Seminar at the Yeditepe University, Industrial and Systems Engineering Department, Istanbul, Turkey, November 30 and December 1, 2015.
- **Bayesian reverse engineering approach to estimate parameters from observations in dynamical systems**. Seminar at the Shanghai Jiao Tong University, School of Mechanical Engineering, Shanghai, China, May 6, 2015.
- **Different approaches for a robust optimization of the home care services**. Seminar at the University of Nottingham, China Campus, Department of Mechanics Materials and Manufacturing Engineering, Ningbo, China, May 4, 2015.
- **Applying the cardinality-constrained approach in health care systems (standard two levels or more levels): the home care example**. Seminar at the Shanghai Jiao Tong University, School of Mechanical Engineering, Shanghai, China, April 28, 2015.
- **Robust approaches in optimization methods for health care delivery**. Seminar at the Yeditepe University, Industrial and Systems Engineering Department, Istanbul, Turkey, December 1, 2014.
- **Stochastic optimization methods for health care delivery: the home care example**. Seminar at the MOX Laboratory, Department of Mathematics, Politecnico di Milano, Milan, Italy, October 4, 2013.

Other presentations:

- E. Lanzarone, S. Casartelli. **Prendersi cura di donatori e donazioni in un centro AVIS: strumenti di gestione operativa e data science**. Gestione Operativa a Supporto del Governo Clinico (GO Health!). Turin, Italy, February 10, 2025.

- E. Lanzarone. **Initiatives of the National Research Council of Italy**. First Industrial Conference on Artificial Intelligence and Health (ICAIH 2019) – round table 6: European and Italian initiatives in AI and health. Regione Lombardia (Palazzo Pirelli), November 13 and 14, 2019.
- E. Lanzarone, S. Marconi. **L’idea Beta-Lab**. Beta-Lab: Ruolo della Ricerca Traslazionale. I.R.C.C.S. Policlinico San Donato, March 11, 2014.

Projects

Funded research projects

Grants and coordination roles:

- **Assegno di ricerca position funded by the Università degli Studi di Bergamo within the program STaRs (Supporting Talented Researchers)**. Winner of a scholarship to activate a biyearly assegno ricerca position on the topic “approcci di ottimizzazione avanzata per la gestione integrata delle risorse nei servizi di assistenza domiciliare”. Financed amount 66k€. Position to be activated.
- **Assegno di ricerca position funded by the Department of Management, Information and Production Engineering of the Università degli Studi di Bergamo)**. Winner of a scholarship to activate a biyearly assegno ricerca position on the topic “gestione robusta dell’assistenza sanitaria con machine learning simulato”. Financed amount 55k€. Position activated in November 2024.
- **AI-based methods to improve stratification of patients affected by Polycystic Kidney Disease using multi-parametric MRI – AI4PKD**. Project funded by the Italian Ministry of University and Research under the program PRIN 2022. Member of the University of Bergamo Research Unit (only effective member of the Unit already in the Project at the proposal stage) and scientific responsible for the research contracts activated on the Project; Principal investigator Elisa Scalco (CNR-ITB). Financed amount of the Project equal to 194k€. Project developed from 2023 to 2025. *The project proposal ranked first in research sector PE7.*
- **Miglioramento delle produzioni agroalimentari e tecnologie innovative per un’alimentazione più sana, sicura e sostenibile – sPATIALS3**. Hub Project funded by Regione Lombardia. Coordinator of the CNR-IMATI Research Unit until transferred from the CNR to the University of Bergamo. Financed amount of the Unit equal to 71.5k€. Project developed from 2019 to 2022. *This Project obtained the “Lombardia Innovativa” recognition.*
- **Industrial PhD position funded by CNR and Confindustria**. Winner of a scholarship to activate an industrial doctorate position (XXXV cycle). The position has been activated at the Politecnico di Milano in collaboration with Prof. Andrea Matta on the topic “stochastic energy saving policies for machine tools”.
- **Future Home for Future Communities – FHfFC**. Project funded by Regione Lombardia (Act 7884 of August 5, 2016) and CNR. Coordinator of the CNR-IMATI Research Unit. Financed amount of the Unit equal to 42k€. Project developed from 2017 to 2019.
- **Fab@Hospital for bone plate fabrication and patient anatomy reconstruction using rapid prototyping technologies – F@H for 3D plates**. Flagship Project Factory of the Future (Prototype Project) funded by the Italian Ministry of University and Research and the CNR. Principal investigator; other unit coordinators Ferdinando Auricchio (Università degli Studi di Pavia) and Giacomo Copani (CNR-ITIA). Financed amount of the Project equal to 58k€. Project developed in 2016.
- **Automated electrospinning plant for industrial manufacturing of functional composite nanofibres – AUTOSPIN**. Flagship Project Factory of the Future (Prototype Project) funded by the Italian Ministry of University and Research and the CNR. Coordinator of the CNR-IMATI Research Unit. Financed amount of the Project equal to 54k€. Project developed in 2016.
- **Hospital factory for manufacturing customized, patient specific 3D anatomic-functional models and prostheses – Fab@Hospital**. Flagship Project Factory of the Future (Subproject S2) funded by the Italian Ministry of University and Research and the CNR. Principal investigator; other unit coordinators Ferdinando Auricchio (Università degli Studi di Pavia) and Giacomo Copani (CNR-ITIA). Financed amount of the Project equal to 149.5k€. Project developed from 2014 to 2016.
- **Composite nanofibres for treatment of air and water by an industrial conception of electrospinning – NanoTWICE**. Flagship Project Factory of the Future (Subproject S1) funded by the Italian Ministry of University and Research and the CNR. Coordinator of the CNR-IMATI Research Unit. Financed amount of the Project equal to 300k€. Project developed from 2013 to 2015.
- **Sviluppo di uno strumento di supporto per l’allocazione ottimale delle risorse umane in assistenza domiciliare**. Project founded by Fondazione Floriani. Referent of the project together with Andrea Matta. Project developed from 2010 to 2011.

Main participations:

- **AdvaNced Technologies for Human-centrEd Medicine – ANTHEM**. Project founded under the “Piano Nazionale Complementare al PNRR (PNC)” programme. Member of the Unibg Spoke 1; spoke coordinator Fabio Previdi. Project developed from 2022 to 2026.
- **Blueprint alliance for a future health workforce strategy on digital and green skills – BeWell**. Project founded under the European Erasmus+ programme (grant number 101056563). Member of the Unibg Research Unit; unit coordinator Andrea Remuzzi. Project developed from 2022 to 2026.
- **A Network for Trustworthy Artificial Intelligence – TAILOR**. Project founded under the European ICT-48-2020 programme. Referent of the CNR-IMATI for the CNR Research Unit coordinated by Fosca Giannotti, until transferred from CNR to Unibg. Project developed from 2020 to 2023.
- **Self-Optimizing Shredding Station for Demanufacturing Plants – ShredIT**. Flagship Project Factory of the Future (Prototype Project) funded by the Italian Ministry of University and Research and the CNR. Member of the CNR-IMATI Research Unit; unit coordinator Antonio Pivatolo. Project developed in 2016.
- **Project Fabbrica Intelligente – FIDEAS**. Project funded by Regione Lombardia (Act 3667 of April 27, 2013) and CNR. Member of the CNR-IMATI Research Unit; unit coordinator Antonio Pivatolo. Project developed from 2013 to 2015.
- **Integrated technological solutions for zero waste recycling of printed circuit boards – ZeroWastePCBs**. Flagship Project Factory of the Future (Subproject S1) funded by the Italian Ministry of University and Research and the CNR. Member of the CNR-IMATI Research Unit; unit coordinator Antonio Pivatolo. Project developed from 2013 to 2015.
- **Flagship Project InterOmics – Subproject S1 – WP15**. Flagship Project PB.P05 funded by the Italian Ministry of University and Research and the CNR. Member of the CNR-IMATI Research Unit; unit coordinator Liliana Ironi. Project developed from 2012 to 2014.
- **Sviluppo di uno strumento di supporto alla pianificazione del servizio di assistenza domiciliare**. Project founded by Fondazione Lu.V.I. Onlus. Member of the Politecnico di Milano Research Unit; unit coordinator Andrea Matta. Project developed from 2008 to 2009.

Other participations:

- **Virtual modeling and additive manufacturing (3D printing) for advanced materials – 3D@UniPV**. Progetto Strategico di Ateneo 2015, Università degli Studi di Pavia. CNR-IMATI is Project Collaborator; reference people are: Annalisa Buffa, Ettore Lanzarone.
- **La Matematica per la società e l’innovazione tecnologica – MATHTECH**. Progetto Premiale 2012, funded by the Italian Ministry of University and Research. Member of WP2 “Salute e Benessere” and WP5 “Fabbrica del futuro” (Leader of Task 5.3 “Modelli stocastici nella manifattura”).

Collaborations:

- **Collaborator of the COVAID group of the University of Bergamo** in support of the intensive care unit of the Papa Giovanni XXIII hospital, Bergamo, Italy, for the analysis of data from patients with COVID-19.
- **Collaboration with AVIS Comunale di Milano**. Collaboration with the Associazione Volontari Italiani del Sangue (Milan department) for the optimal donor flow management, provided free of charge to support the association’s activities. Contact person of the association Sergio Casartelli (general director).
- **Collaboration with Paloma 2000**. Collaboration with the Social Cooperative Paloma 2000 for the optimal management of home care services, provided free of charge to support the cooperative’s activities. Contact person of the cooperative Cecily Castelnovo.
- **Sistema di Monitoraggio Ambientale con Rete di sensori e Telemonitoraggio indossabile a supporto di servizi di salute, prevenzione e sicurezza per l’active aging – SMARTA**. Project funded by Regione Lombardia within the call Smart Cities and Communities. Contract collaborator for the project. Project developed from 2014 to 2015.

Mobility Projects:

- **Ottimizzazione con decisori multipli e incertezza nei dati**. Project funded by the Istituto Nazionale di Alta Matematica “Francesco Severi” (INDAM) in 2024. Project member; coordinator Sara Mattia.

- **Ottimizzazione con incertezza.** Project funded by the Istituto Nazionale di Alta Matematica “Francesco Severi” (INDAM) in 2022. Project member; coordinator Sara Mattia.
- **Ottimizzazione bilivello.** Project funded by the Istituto Nazionale di Alta Matematica “Francesco Severi” (INDAM) in 2020. Project member; coordinator Sara Mattia.
- **Advanced visual tool for the collaborative replanning of service delivery at home: application to home health care.** Project no.138 funded by the Visionair European infrastructure. TNA referent of the project. Project developed from February 2014 to April 2014.
- **Data visualization for the complexity of human resource planning in home health care.** Project no.29 funded by the Visionair European infrastructure. TNA referent of the project. Project developed from November 2012 to July 2013.

Other results in proposed research projects:

- **Robotics for rehabilitation: robotized motor coordination analysis and therapy – R4R.** Project presented to the call FIRB 2008 (code RBF08MBEO) of the Italian Ministry of University and Research. Coordinator of the Politecnico di Milano Research Unit. Proposal admitted to the national auditions and declared fundable, even if not funded due to lack of additional funds.

.....

Consultancy and software

Activities for clinical studies on devices for CE/FDA marking:

- AorticLab SrL; *Attività di consulenza riguardante la stesura di piani statistici e analisi statistica dei dati riguardanti studi clinici su dispositivi interventistici cardiovascolari*; January 2024 - December 2024.
- AorticLab SrL; *Attività di consulenza relativa all’analisi statistica dei dati provenienti dallo studio Nautilus del dispositivo Embrace*; November 2021 - December 2023 (including two renewals in addition to the first contract).
- BetaGlue Therapeutics SpA; *Attività di consulenza riguardanti l’assetto statistico del programma di sviluppo clinico del Committente*; January 2024 - December 2025.
- Endostart SrL; *Attività di consulenza riguardante il piano di analisi statistica e il dimensionamento del campione dello studio clinico del dispositivo Endorail, per la validazione clinica negli USA tramite uno studio multicentrico randomizzato*; May 2025 - August 2025.
- Endostart SrL; *Attività di consulenza riguardante il piano di analisi statistica e il dimensionamento del campione dello studio clinico Del dispositivo Endorail, con particolare riferimento all’FDA pre-submission meeting*; November 2021 - February 2022.
- Meditrial SrL; *Attività di consulenza riguardante l’analisi completa di statistical analysis plan a supporto di uno studio clinico di un dispositivo CAD per endoscopia*; December 2022 - January 2023.
- Meditrial SrL; *Attività di consulenza riguardante l’analisi statistica a supporto dello studio clinico di un dispositivo CAD per endoscopia*; September 2022 - October 2022.
- Myra Medical SàrL; *Attività di consulenza riguardante il calcolo statistico per un sample size dedito all’avvio di uno studio clinico basato sul trattamento del nervo vasivertebrale*; November 2023 - open conclusion.
- Myra Medical SàrL; *Attività di consulenza riguardante il calcolo statistico per un sample size dedito all’avvio di uno studio clinico basato sul trattamento del nervo vasivertebrale*; dicembre 2022 - gennaio 2022.

The total of these activities amounts to 141’000 eur + VAT.

Software products

- Developer of the optimization algorithm that supports planning at Compass Care LLC, Stamford, CT, US. www.CareWhenYouNeedIt.com
- Developer of the optimization algorithm in TPS 3.0. www.tpssolutions.it
- Developer of the module for forecasting and assigning workload to operators contained in Hopera Oikos. www.newsysline.it

- Developer of Bee@home (human resource planner for home care service) for Bee Value Srl. This was a consultancy and technology transfer company, with an according partnership with CNR-IMATI (protocol CNR-IMATI no. 781 of April 19, 2013) for the development and the dissemination of optimization algorithms.

Didactic activity

PhD and higher education courses:

- *Imaging and VR technologies for cardiac surgery*, Università degli Studi di Bergamo – Higher Education School, International Master of Cardiology and Techniques Applied to Cardiac Surgery, A.Y. 2022/23 - 2024/25.
- *Advanced quantitative methods for bioengineering*, Università degli Studi di Bergamo, PhD in Engineering and Applied Sciences, A.Y. 2022/23, 2024/25.
- *Biomedical device development and validation process*, Università degli Studi di Bergamo, PhD in Engineering and Applied Sciences, A.Y. 2023/24.
- *Imaging and technologies for cardiac surgery*, Università degli Studi di Bergamo – Higher Education School, International Master of Cardiology and Techniques Applied to Cardiac Surgery, A.Y. 2021/22.

University courses (professor):

- *Biomechanics and medical device simulations* (Università degli Studi di Bergamo): Master's Degree Course in Medical Engineering, A.Y. 2023/24 - 2024/25.
- *Medical support systems for chronic diseases* (Università degli Studi di Bergamo): Master's Degree Course in Medical Engineering, A.Y. 2023/24 - 2024/25.
- *Modeling and simulation* (Università degli Studi di Bergamo and Università degli Studi di Milano Bicocca): Degree Course in Medicine and Surgery, A.Y. 2020/21 - 2024/25.
- *Modeling and simulation I - clerkship* (Università degli Studi di Bergamo and Università degli Studi di Milano Bicocca): Degree Course in Medicine and Surgery, A.Y. 2023/24 - 2024/25.
- *Clinical decision support systems* (Università degli Studi di Bergamo and Università degli Studi di Milano Bicocca): Degree Course in Medicine and Surgery, A.Y. 2022/23- 2024/25.
- *Image based biomechanics lab* (Università degli Studi di Bergamo): Master's Degree Course in Engineering and Management for Health, A.Y. 2019/20 - 2024/25.
- *Biomedical engineering applications* (Università degli Studi di Bergamo): Bachelor's Degree Course in Ingegneria delle Tecnologie per la Salute, A.Y. 2022/23.
- *Medical support systems for chronic diseases* (Università degli Studi di Bergamo): Master's Degree Course in Engineering and Management for Health, A.Y. 2018/19 - 2022/23.
- *Mathematical Analysis I* (Politecnico di Milano): Bachelor's Degree Course in Ingegneria Civile - international track, A.Y. 2020/21.
- *Analisi e Geometria 1* (Politecnico di Milano): Bachelor's Degree Courses in Ingegneria Aerospaziale, Energetica e Meccanica (alphabetical group STR-Z), A.Y. 2017/18 - 2020/21; Politecnico di Milano, Bachelor's Degree Courses in Ingegneria Aerospaziale, Energetica e Meccanica (alphabetical group SPE-Z), A.Y. 2015/16, 2016/17.
- *Analisi Matematica 1* (Politecnico di Milano): Bachelor's Degree Courses in Ingegneria Elettronica, Informatica, delle Telecomunicazioni, dell'Automazione e Elettrica (alphabetical group SAZ-Z), A.Y. 2019/20; Bachelor's Degree Courses in Ingegneria Elettronica, Informatica, delle Telecomunicazioni, dell'Automazione e Elettrica (alphabetical group SD-Z), A.Y. 2017/18, 2018/19.
- *Analisi Matematica II* (Politecnico di Milano): Bachelor's Degree Course in Ingegneria Gestionale (alphabetical group PO-Z), A.Y. 2016/17.
- *Analisi matematica 2* (Politecnico di Milano): Bachelor's Degree Courses in Ingegneria Informatica e delle Telecomunicazioni (alphabetical group P-Z), A.Y. 2012/13 - 2014/15.
- *Fisica Tecnica* (Politecnico di Milano): Bachelor's Degree Course in Ingegneria Civile e Ambientale, Polo Regionale di Lecco, A.Y. 2009/10.

Previously, he was a lecturer at the Politecnico di Milano, Milan, Italy.

University courses (lecturer):

- *Mathematical Analysis I* (Politecnico di Milano): Bachelor's Degree Course in Ingegneria Civile - international track (professor myself), A.Y. 2020/21.

- *Analisi Matematica II* (Politecnico di Milano): Bachelor's Degree Course in Ingegneria Matematica (Prof. Gianni Arioli), A.Y. 2013/14 – 2016/17; Bachelor's Degree Course in Ingegneria Fisica (Prof. Gianni Arioli), A.Y. 2010/11 – 2012/13; Bachelor's Degree Course in Ingegneria Gestionale (Prof. Gianni Arioli), A.Y. 2011/12.
- *Analisi e Geometria 2* (Politecnico di Milano): Bachelor's Degree Courses in Ingegneria Aerospaziale, Energetica e Meccanica (Prof. Federico Giampiero Lastaria), A.Y. 2012/13.
- *Analisi e Geometria 1* (Politecnico di Milano): Bachelor's Degree Courses in Ingegneria Aerospaziale, Energetica e Meccanica –percorso ASPRI– (Prof. Maria Cristina Cerutti), A.Y. 2012/13; Bachelor's Degree Courses in Ingegneria Aerospaziale, Energetica e Meccanica (Prof. Marco Ugo Claudio Boella), A.Y. 2011/12.
- *Analisi Matematica I e Geometria* (Politecnico di Milano): Bachelor's Degree Course in Ingegneria Gestionale (Prof. Roberto Notari), A.Y. 2011/12; Bachelor's Degree Course in Ingegneria Gestionale (Prof. Marco Ugo Claudio Boella), A.Y. 2010/11.
- *Probabilità e Statistica Matematica* (Politecnico di Milano): Bachelor's Degree Course in Ingegneria Gestionale (Prof. Marco Ugo Claudio Boella), A.Y. 2008/09 – 2010/11.
- *Complementi di Analisi Matematica* (Politecnico di Milano): Master's Degree Course in Ingegneria Chimica (Prof. Gianni Arioli), A.Y. 2008/09, 2009/10.
- *Sistemi integrati di produzione* (Politecnico di Milano): Master's Degree Course in Ingegneria Meccanica (Prof. Andrea Matta), A.Y. 2010/11.
- *Fisica Tecnica e Sistemi Energetici – modulo di Fisica Tecnica* (Politecnico di Milano): Bachelor's Degree Course in Ingegneria Gestionale (Prof. Antonio Salerno), A.Y. 2011/12; Bachelor's Degree Course in Ingegneria Gestionale (Prof. Alberto Salioni), A.Y. 2010/11, 2011/12.
- *Fisica Tecnica* (Politecnico di Milano): Bachelor's Degree Course in Ingegneria Aerospaziale (Prof. Ferruccio Miglietta); A.Y. 2008/09 – 2010/11; Bachelor's Degree Course in Ingegneria Civile e Ambientale (Prof. Fabio Inzoli); Polo Regionale di Lecco, A.Y. 2010/11; Bachelor's Degree Course in Ingegneria Civile e Ambientale (Prof. Fabio Inzoli); Polo Regionale di Como, A.Y. 2010/11; Bachelor's Degree Course in Ingegneria Meccanica (Prof. Ferruccio Miglietta), A.Y. 2004/05 – 2006/07.

Moreover, he also performed other didactic activities at Politecnico di Milano: he was a project tutor for the course *Bayesian Statistics* (Prof. Alessandra Guglielmi), from A.Y. 2015/16; he was a project reviewer for the course *Research management* (Ph.D. school, Prof. Tullio Tollo e Marcello Urgo), A.Y. 2010/11, 2012/13, and 2013/14; he performed seminars for various courses within the Industrial Bioengineering and various tutoring activities.

He has been Advisor of Master's and Bachelor's Degree Theses.

List of Master's Degree Theses:

- S. Chiesa. **A lumped parameter model for simulating the effects of interatrial shunt devices in heart failure with preserved ejection fraction.** Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2023/24. Advisor: S. Caravita. Co-advisor: [E. Lanzarone](#).
- R. Ceresoli. **Prediction of cardiopulmonary exercise test variables based on clinical and hemodynamic data.** Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2023/24. Advisor: S. Caravita. Co-advisor: [E. Lanzarone](#).
- A. Locatelli. **Development and analysis of a lumped parameter model for simulating pulmonary circulatory system in patients with secondary tricuspid regurgitation.** Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2023/24. Advisor: S. Caravita. Co-advisor: [E. Lanzarone](#).
- D. Ahbar. **U-net models for the segmentation of livers with early-intermediate stage PDAC metastases.** Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2023/24. Advisor: [E. Lanzarone](#). Co-advisor: F. Sangalli.
- E. Elzi. **Discrete event simulation for improving cardiac robotic operating theater efficiency: comparison between the current and the future configuration.** Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2023/24. Advisor: [E. Lanzarone](#). Co-advisor: A. Agnino.
- F. Lussana. **Radiomic analysis for the characterization of non-cystic tissue from Autosomal Dominant Polycystic Kidney Disease (ADPKD) patients using multi-parametric MRI.** Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2023/24. Advisor: [E. Lanzarone](#). Co-advisor: E. Scalco.

- S. Noto Millefiori. **A post-processing approach for segmentation: 3D reconstruction tools following a 2D-Convolutional Neural Network (CNN)**. Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2023/24. Advisor: [E. Lanzarone](#). Co-advisor: E. Scalco.
- S. Di Chiaro. **Investigating the effects of diffusion model and microstructural measures on the analysis of the structural brain connectivity in older adults**. Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2022/23. Advisor: [E. Lanzarone](#). Co-advisors: A. Mastropietro, F. Prinelli.
- A. Lucchini, M. Brambilla. **Left ventricular pressure-volume loops algorithm: synchronization of echocardiographic and catheterization data and single-beat estimation of hemodynamic parameters**. Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2022/23. Advisor: S. Caravita. Co-advisor: [E. Lanzarone](#).
- M. Magni, E. Perri. **A deep learning tool for 3D recognition and segmentation of physiological uptake of 18F-FDG-PET**. Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2022/23. Advisor: [E. Lanzarone](#). Co-advisor: E. De Bernardi.
- M. Bernini. **CFD study on complex intracranial aneurysms and respective physiological conditions to investigate the role of morphology and hemodynamic in the process of pathological vessel wall remodeling**. Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2022/23. Advisor: [E. Lanzarone](#). Co-advisors: M. Bozzetto, L. Soliveri.
- F. Parenti, C. Tiraboschi. **Segmentation of metastatic livers: manual and U-net based procedures**. Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2022/23. Advisor: [E. Lanzarone](#). Co-advisors: F. Sangalli, A. Resovi.
- S. Pozzi **Comparison of uncertainty quantification approaches for Bayesian convolutional neural networks: application to image segmentation in oncology**. Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2022/23. Advisor: [E. Lanzarone](#). Co-advisor: E. Scalco.
- A. Bertocchi **Development of an app based on a supervised machine learning algorithm to predict glycemic scores after meals**. Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2022/23. Advisor: A. Ferramosca. Co-advisor: [E. Lanzarone](#).
- A. Bisesti. **Integrating uncertainty quantification in breast tumor image segmentation by means of a Bayesian convolutional neural network**. Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2021/22. Advisor: [E. Lanzarone](#). Co-advisor: E. Scalco.
- J. Volpi. **Computational fluid dynamic modeling of flow-altering surgical procedures in complex cerebral aneurysms**. Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2021/22. Advisor: [E. Lanzarone](#). Co-advisor: M. Bozzetto.
- M. Esposito, C. Rusconi. **Implementation of machine learning algorithms to predict the clinical outcome of the arteriovenous fistula for hemodialysis**. Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2021/22. Advisor: [E. Lanzarone](#). Co-advisor: M. Bozzetto.
- F. Bonacorsi. **Development of a Convolutional Neural Network for automatic quantification of renal interstitial volume**. Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2021/22. Advisor: [E. Lanzarone](#). Co-advisors: A. Caroli, A. Remuzzi.
- M. Rombolotti. **Automatic segmentation of kidneys affected by polycystic kidney disease using U-Net based models**. Master's Degree Thesis in Mathematical Engineering, Politecnico di Milano, 2019/20. Advisor: A. Guglielmi. Co-advisors: [E. Lanzarone](#), A. Remuzzi.
- M. Schena, F. Testa. **Development of a flexible CTA-to-CFD pipeline to study patient-specific hemodynamics in complex cerebral aneurysms**. Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2019/20. Advisor: [E. Lanzarone](#). Co-advisor: M. Bozzetto.
- A. Scaburri. **A computational model of lower limb circulation for surgical planning of deep veins arterialization in the treatment of critical limb ischemia**. Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2019/20. Advisor: [E. Lanzarone](#). Co-advisor: A. Remuzzi.
- M. Begnis, Y. Char. **Enhancing Bayesian approaches for intravoxel incoherent motion parameters estimation in diffusion-weighted MRI by clustering techniques**. Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2019/20. Advisor: [E. Lanzarone](#).
- C. Mazzanti. **Biomedical sample transportation problem: an iterative time decomposition scheme with fix and optimize techniques**. Master's Degree Thesis in Mathematical Engineering, Politecnico di Milano, 2019/20. Advisor: G. Carello. Co-advisors: A.M. Anaya-Arenas, V. Bélanger, [E. Lanzarone](#), A. Ruiz.

- M. Doneda. **A discrete-event simulation model for the improvement of operations in a blood donation center.** Master's Degree Thesis in Engineering and Management for Health, University of Bergamo, 2019/20. Advisor: [E. Lanzarone](#). Co-advisors: S. Yalçındağ, I. Marques.
- L. Galperti. **Un approccio robusto per l'assegnamento paziente-operatore nei servizi di assistenza domiciliare con riassegnamento dinamico.** Master's Degree Thesis in Mathematical Engineering, Politecnico di Milano, 2019/20. Advisor: G. Carello. Co-advisor: [E. Lanzarone](#).
- Y. Zhu. **Home care scheduling considering preference matching.** Master's Degree Thesis in Mechanical Engineering, Politecnico di Milano, 2019/20. Advisor: A. Matta. Co-advisor: [E. Lanzarone](#).
- E. Spinelli. **Count process approach to recurrent event data: a Bayesian model for blood donations.** Master's Degree Thesis in Mathematical Engineering, Politecnico di Milano, 2018/19. Advisor: A. Guglielmi. Co-advisor: [E. Lanzarone](#).
- L. Malagodi. **Home Care Vehicule Routing Problem: the case of chargeable overtime and preferences.** Master's Degree Thesis in Mathematical Engineering, Politecnico di Milano, 2017/18. Advisor: A. Matta. Co-advisor: [E. Lanzarone](#).
- S. Carlucci. **Blood donation appointment scheduling problem: an implementor-adversarial robust approach.** Master's Degree Thesis in Mathematical Engineering, Politecnico di Milano, 2016/17. Advisor: G. Carello. Co-advisor: [E. Lanzarone](#).
- M. Toschi. **Two local search heuristic approaches for solving the biomedical sample transportation problem.** Master's Degree Thesis in Mathematical Engineering, Politecnico di Milano, 2016/17. Advisor: G. Carello. Co-advisors: A.M. Anaya-Arenas, V. Bélanger, [E. Lanzarone](#), V. Nicoletta, A. Ruiz.
- E. Galluccio. **A recursive optimization-simulation approach for the ambulance location and dispatching problem.** Master's Degree Thesis in Mathematical Engineering, Politecnico di Milano, 2016/17. Advisor: G. Carello. Co-advisors: V. Bélanger, [E. Lanzarone](#), V. Nicoletta, A. Ruiz.
- I. Gianoli. **Analysis of gap times of recurrent blood donations via Bayesian nonparametric models.** Master's Degree Thesis in Mathematical Engineering, Politecnico di Milano, 2015/16. Advisor: A. Guglielmi. Co-advisor: [E. Lanzarone](#).
- G. Lugaresi. **The cardinality-constrained approach applied to manufacturing problems.** Master's Degree Thesis in Mechanical Engineering, Politecnico di Milano, 2015/16. Advisor: A. Matta. Co-advisor: [E. Lanzarone](#).
- V. Nicoletta. **Robust optimization approach for location-allocation problems under demand uncertainty.** Master's Degree Thesis in Mathematical Engineering, Politecnico di Milano, 2015/16. Advisor: E. Amaldi. Co-advisors: V. Bélanger, [E. Lanzarone](#), A. Ruiz.
- D. Laricini. **Un approccio Implementor-Adversary per l'assegnamento dei pazienti agli operatori nei servizi di assistenza domiciliare con domande incerte e temporalmente correlate.** Master's Degree Thesis in Mathematical Engineering, Politecnico di Milano, 2014/15. Advisor: G. Carello. Co-advisor: [E. Lanzarone](#).
- M. Ciniselli. **Un approccio robusto per il problema dell'assegnamento ottimale dei pazienti agli operatori nei servizi di assistenza domiciliare.** Master's Degree Thesis in Mathematical Engineering, Politecnico di Milano, 2013/14. Advisor: G. Carello. Co-advisor: [E. Lanzarone](#).
- L. Pagani. **Progettazione, implementazione e validazione sperimentale di un software di controllo retroazionato per una pompa pulsatile da banco.** Master's Degree Thesis in Ingegneria Biomedica, Politecnico di Milano, 2006/07. Advisor: M.L. Costantino. Co-advisors: [E. Lanzarone](#), E. Cutri.
- F. Barbone, G. Intini. **Modello del controllo endoteliale della circolazione arteriosa in perfusione continua o pulsatile.** Master's Degree Thesis in Ingegneria Biomedica, Politecnico di Milano, 2006/07. Advisor: M.L. Costantino. Co-advisor: [E. Lanzarone](#).
- F. Aletti. **Risposta dei distretti periferici alle condizioni di circolazione in un modello di albero arterioso.** Master's Degree Thesis Ingegneria Biomedica, Politecnico di Milano, 2004/05. Advisors: G. Baselli, M.L. Costantino. Co-advisor: [E. Lanzarone](#).

He has been Opponent of Master's and Bachelor's Degree Theses.

List of Master's Degree Theses:

- G. Salvetti. Master's Degree Thesis in Engineering and Management for Health (*advisors S. Caravita and F.M.A. Brasca*, University of Bergamo, 2023/24).
- F. Arrigoni. Master's Degree Thesis in Mathematical Engineering (*advisors I. Epifani and A. Guglielmi*, Politecnico di Milano, 2023/24).
- G. Sangaletti, F. Facoetti. Master's Degree Thesis in Management Engineering (*advisors A. Ferramosca, M. Polver and B. Sonzogni*), University of Bergamo, 2023/24).

- L. Cavagna, G. Mologni. Master's Degree Thesis in Management Engineering (*advisors M. Cattaneo and F. Maggioni*), University of Bergamo, 2023/24.
- N. Licini. Master's Degree Thesis in Engineering and Management for Health (*advisors A. Ferramosca, M. Polver and B. Sonzogni*), University of Bergamo, 2023/24.
- G. Gabrielli. Master's Degree Thesis in Mathematical Engineering (*advisors G. Carello and M. Doneda*, Politecnico di Milano, 2022/23.
- A. Mazzola. Master's Degree Thesis in Engineering and Management for Health (*advisor A. Remuzzi*), University of Bergamo, 2021/22.
- F. Malvezzi. Master's Degree Thesis in Engineering and Management for Health (*advisor A. Ferramosca*), University of Bergamo, 2021/22.
- C. Doneda, M. Fumagalli. Master's Degree Thesis in Engineering and Management for Health (*advisor A. Ferramosca*), University of Bergamo, 2021/22.
- S. Capelli. Master's Degree Thesis in Engineering and Management for Health (*advisors A. Remuzzi e A. Caroli*), University of Bergamo, 2021/22.
- L. Rota. Master's Degree Thesis in Engineering and Management for Health (*advisors A. Ferramosca e C. Toffanin*), University of Bergamo, 2020/21.
- G. Salvi. Master's Degree Thesis in Ingegneria Gestionale (*advisor A. Vitali*), University of Bergamo, 2020/21.
- I. Martinelli. Master's Degree Thesis in Mathematical Engineering (*advisors I. Epifani and A. Guglielmi*, Politecnico di Milano, 2019/20.
- A. Arrigoni. Master's Degree Thesis in Engineering and Management for Health (*advisors A. Remuzzi and A. Caroli*), University of Bergamo, 2019/20.
- A. Di Blasi. Master's Degree Thesis in Ingegneria Matematica (*advisors A. Guglielmi and R. Argiento*), Politecnico di Milano, 2018/19.

He has been Opponent and Committee Member for Ph.D. theses.

List:

- Opponent and invited member of the committee for the Ph.D. Thesis in Information Technology by Bruno Guindani (*advisors D. Ardagna and A. Guglielmi*), Politecnico di Milano, Italy, XXXVI ciclo, 2024.
- Opponent and invited member of the committee for the Ph.D. Thesis in Information Technology by Eduardo Redondo (*advisors A. Ruiz and V. Bélanger*), Faculty of Graduate and Postdoctoral Studies, Université Laval, Canada, 2024.
- Opponent for the Ph.D. Thesis in Electronics and Communication Engineering authored by Ramaswamy Kanimozhi (*advisor R. Gayathri*), Annamalai University, India, 2022.
- Opponent for the Ph.D. Thesis in Bioengineering authored by Giordano Tasca (*advisors A. Redaelli and R. Vismara*), Politecnico di Milano, Italy, XXX cycle, 2018.
- *Ph.D. dissertations at the Departamento de Física Aplicada, Universidad de Granada, Spain.* Invited member of the committee, November 21, 2012.

Conference committee memberships

- *50th Conference on Operational Research Applied to Health Services (ORAHS 2024)*. Turin, Italy, July 14-20, 2024. Member of the scientific and organising committees, and of the jury for the poster contest.
orahs.di.unito.it
- *5th International Conference on Health Care Systems Engineering (HCSE 2023)*. Lisbon, Portugal, September 14-16, 2023. Chair of the scientific committee with F. Visintin.
hcse2023.tecnico.ulisboa.pt
- *49th Congress of the European Society for Artificial Organs (ESAO & IFAO 2023)*. Bergamo, Italy, August 29 - September 1, 2023. Member of the local committee.
www.esao.org
- *47th Conference on Operational Research Applied to Health Services (ORAHS 2021)*. Online with virtual locations in Southampton, UK, and Burnaby, Canada, July 5-9, 2021. Member of the virtual organising committee.
orahs.di.unito.it
- *8th Workshop on Bayesian Inference in stochastic processes (BISP8)*. Milan, Italy, June 6-8, 2013. Member of the organising committee.
www.mi.imati.cnr.it/conferences/BISP8
- *1st International Conference on Health Care Systems Engineering (HCSE 2013)*. Milan, Italy, May 22-24, 2013. Member of the scientific and of the organising committees.
hcse2013.mecc.polimi.it

Jury memberships

- *9th AIRO (Associazione Italiana di Ricerca Operativa) Young Workshop 2025*. Pavia, Italy, February 26-28, 2025. Member of the jury for the poster contest.
- *42nd Conference on Operational Research Applied to Health Services (ORAHS 2016)*. Pamplona, Spain, July 24-29, 2016. Member of the jury for the poster contest.

Session and stream chair

- *49th Conference on Operational Research Applied to Health Services (ORAHS 2023)*. Graz, Austria, July 16-21, 2023. Chair of the session “Integrated Planning of Care Networks”.
- *31st European Conference on Operational Research (EURO 2021)*. Athens, Greece, July 14-21, 2021. Chair of the stream “Stochastic Modeling in Health Care”.
- *Winter Simulation Conference 2018*. Gothenburg, Sweden, December 9-12, 2018. Chair of the session “Emergency Medical Service Systems”.
- *44th Conference on Operational Research Applied to Health Services (ORAHS 2018)*. Oslo, Norway, July 29 - August 3, 2018. Chair of the session “Ambulance / Vehicle Routing I”.
- *42nd Conference on Operational Research Applied to Health Services (ORAHS 2016)*. Pamplona, Spain, July 24-29, 2016. Chair of the session “Home Care / LTC(I)”.
- *41st Conference on Operational Research Applied to Health Services (ORAHS 2015)*. Montréal, Canada, July 19-24, 2015. Chair of the session “Patient scheduling 1”.
- *39th Conference on Operational Research Applied to Health Services (ORAHS 2013)*. Istanbul, Turkey, July 7-12, 2013. Chair of the session “OR methodologies for home care”.
- *35th Conference on Operational Research Applied to Health Services (ORAHS 2009)*. Leuven, Belgium, July 12-17, 2009. Chair of the session “Home care services”.

Others

- *14th International Conference on Global Health Challenges (GLOBAL HEALTH 2025)*. Lisbon, Portugal, September 28 - October 2, 2025. Member of the Technical Program Committee.
www.iaria.org/conferences2025/GLOBALHEALTH25.html
- *17th International Conference on Advances in System Simulation (SIMUL 2025)*. Lisbon, Portugal, September 28 - October 2, 2025. Member of the Technical Program Committee.
www.iaria.org/conferences2025/SIMUL25.html
- *17th International Conference on eHealth, Telemedicine, and Social Medicine (eTELEMED 2025)*. Nice, France, May 18-25, 2025. Member of the Technical Program Committee.
www.iaria.org/conferences2025/eTELEMED25.html

- *16th International Conference on Advances in System Simulation (SIMUL 2024)*. Venice, Italy, September 29 - October 3, 2024. Member of the Technical Program Committee.

Fellowships *Scientific responsible of the following “Assegni di Ricerca”*

- Dr. Martina Doneda (November 2024 – October 2026)
Gestione robusta dell’assistenza sanitaria con machine learning simulato.
- Dr. Francesca Lussana (March 2024 – February 2025)
Research activity within the project AI-based methods to improve stratification of patients affected by Polycystic Kidney Disease using multi-parametric MRI (AI4PKD).
- Dr. Martina Doneda (September 2020 – October 2021)
Research activity within the project Miglioramento delle produzioni agroalimentari e tecnologie innovative per un’alimentazione più sana, sicura e sostenibile (sPATIALS3).
- Dr. Fabiola Regis-Hernández (March 2017 – March 2018)
Research activity within the project Future Home for Future Communities (FHfFC). She is now Professor at the Tecnológico de Monterrey, San Luis Potosí, Mexico.
- Dr. Fabio Manganini (March 2014 – March 2015)
Modelli stocastici per l’ottimizzazione del processo di elettrofilatura e sull’analisi delle immagini SEM di manufatti ottenuti tramite elettrofilatura.
- Dr. Laura Martín-Fernández (April 2013 – September 2013)
Modellazione stocastica dei processi industriali: frantumazione di schede elettroniche e separazione dei materiali che le compongono; deposizione di nanofibre a base polimerica su matrice tramite elettrofilatura (jointly with A. Pievatolo).

Scientific responsible of the following “Borse di Studio”

- Dr. Annalisa Romantini (June 2014)
Modelli matematici differenziali e stocastici a supporto dello studio dell’emodinamica vascolare in vitro.
- Dr. Ilaria Bianchini (May 2014 - October 2014)
Metodologie parametriche e non parametriche di statistica bayesiana applicate allo studio della biomeccanica.

Scientific responsible of the following “Contratti di Collaborazione”

- Dr. Lucia Galperti (July 2020 - October 2020)
Implementazione software di un tool di ottimizzazione per l’assistenza domiciliare.
- Dr. Giuseppe La Rosa (March 2018 - June 2018)
Integrazione di un tool di ottimizzazione con i dati contenuti nel database di AVIS Milano.
- Dr. Anna Ferrara (October 2014 - January 2015)
Modelli matematici e strutturali a supporto dello studio dell’emodinamica vascolare in vitro.

Advisor and co-advisor of the following Ph.D. Theses

- Dr. Michael Bernini, *Working Project.*
Ph.D. Thesis in Health and Longevity, University of Bergamo, Italy, 2028. Advisor: A. Remuzzi; Co-advisor: E. Lanzarone.
- Dr. Aleyna Gursoy, *Working Project.*
Ph.D. Thesis in Health and Longevity, University of Bergamo, Italy, 2028. Advisor: A. Remuzzi; Co-advisor: E. Lanzarone.
- Dr. Martina Doneda, *Working Project.*
Ph.D. Thesis in Information Technology, Politecnico di Milano, Italy, 2024. Advisor: G. Carello; Co-advisor: E. Lanzarone.
- Dr. Alberto Loffredo, *Stochastic energy saving policies for machine tools.*
Industrial Ph.D. position (XXXV cycle) funded by CNR and Confindustria (awarded to Ettore Lanzarone), in collaboration with Prof. Andrea Matta of the Politecnico di Milano.
- Dr. Seda Baş, *Balancing the production of blood bags from donation through appointment scheduling.*
Ph.D. Thesis in Industrial and System Engineering, Yeditepe University, Istanbul, Turkey, 2018. Advisor: S. Yalçındağ; Co-advisor: E. Lanzarone.
- Dr. Inad Nawajah, *Bayesian analysis of home care longitudinal counts data.*
Ph.D. Thesis in Mathematical Models and Methods in Engineering, Politecnico di Milano, Italy, 2014. Advisor: A. Guglielmi; Co-advisors: R. Argiento, E. Lanzarone.

Visiting periods and hosted researchers

He has been visiting researcher at:

- **KU Leuven, Tchnology Campus**, Ghent, Belgium. Invited visiting researcher, July 2023. www.kuleuven.be
- **CNR, Institute for Systems Analysis and Computer Science (IASI)**, Rome, Italy. Invited visiting researcher, November 2021 and January-February 2023. www.iasi.cnr.it
- **KU Leuven, Department of Information Management, Modeling and Simulation**, Bruxelles, Belgium. Invited visiting researcher, February 2020. www.kuleuven.be
- **Université de Montréal, CIRRELT**, Montréal, Canada. Invited visiting researcher, May 2016, and May-June 2019. www.umontreal.ca
- **Université Laval, Faculty of Business Administration**, Quebec, Canada. Invited visiting researcher, July 2015, March 2016, January-February 2017, and February 2019. www.ulaval.ca
- **Laboratories of the Final Event of the Projects Factory of the Future**, Naples, Turin, Milan, Parma and Rome, Italy. Researcher invited to join the final event, November 26-30, 2018. eventofinale.fabbricadelfuturo-fdf.it
- **Universitat Politècnica de València, Departamento de Organización de Empresas**, Valencia, Spain. Invited visiting researcher, April 2018. www.doe.upv.es
- **Yeditepe University, Industrial and Systems Engineering Department**, Istanbul, Turkey. Visiting researcher for a PhD Research Project, November 2014 and November 2015. sye.yeditepe.edu.tr
- **Shanghai Jiao Tong University, School of Mechanical Engineering**, Shanghai, China. Invited visiting researcher, April-May 2015. me.sjtu.edu.cn/english
- **Labotatoire des sciences pour la conception, l'optimisation et la production (G-SCOP)**, CNRS-INPG-UJF, Grenoble, France. Invited visiting researcher, March 2015. Visiting researcher for the Visionair Project no.138, April 2014. Visiting researcher for the Visionair Project no.29, November 2012 and July 2013. www.g-scop.grenoble-inp.fr
- **HEC, Département des sciences de la décision**, Montréal, Canada. Invited visiting researcher, May 2014. www.hec.ca
- **King Abdullah University of Science and Technology (KAUST), Center for Uncertainty Quantification in Computational Science & Engineering**, Thuwal, Saudi Arabia. Invited visiting researcher, April 2013. sri-uq.kaust.edu.sa

He hosted the following researchers:

- **Sara Mattia**, CNR-IASI, Rome, Italy; April 2023.
- **Nadia Lahrichi**, École Polytechnique de Montréal, Montréal, Canada; April 2016, February-April 2017, and seminar at Unibg on March 13, 2023.
- **Andrea Lodi**, École Polytechnique de Montréal, Montréal, Canada; seminar at CNR-IMATI on February 5, 2018.
- **Semih Yalçındağ**, Yeditepe University, Istanbul, Turkey; April 2016 and March 2017.
- **Valérie Bélanger**, HEC, Montréal, Canada; March 2015 and May 2016.

.....

Reviewer activity

Reviewer for:

- Referee for international journals (American Journal of Physiology - Heart and Circulatory Physiology; Annals of Operations Research; Applied Stochastic Models in Business and Industry; Artificial Organs; Biological Invasions; Cardiovascular Diabetology; CIRP Journal of Manufacturing Science and Technology; Computers and Operations Research; Computers in Biology and Medicine; Decision Sciences; European Journal of Operational Research; Expert Systems with Applications; Flexible Services and Manufacturing Journal; Health Care Management Science; Health Systems; IEEE/ACM Transactions on Computational Biology and Bioinformatics; IEEE Journal of Biomedical and Health Informatics; IEEE Transactions on Automation Science and Engineering; IEEE Transactions on Biomedical Engineering; IEEE Transactions on Systems, Man, and Cybernetics; IIE Transactions on Healthcare Systems Engineering; IISE Transactions; International Journal for Numerical Methods in Engineering; International Journal of Artificial Organs; International Journal of Computer Assisted Radiology and Surgery; International Journal of Planning and Scheduling; International Journal of Production Research; International Transactions in Operational Research; Journal of Biomechanics; Journal of Cleaner Production; Journal of Mathematical Biology; Journal of the Operational Research Society;

Mathematics; Networks; Omega - The International Journal of Management Science; Operations Research for Health Care; RAIRO - Operations Research; Robotica; Science, Engineering and Health Studies; Scientia Iranica Journal; Simulation Modelling Practice and Theory; Transportation Research Part B: Methodological; Transportation Research Part E: Logistics and Transportation Review).

- Referee for the evaluation of research projects for the Fonds de Recherche du Québec, Canada - Nature et Technologies (FRQNT).
- Referee for the evaluation of research projects for the Discovery Grants Program on behalf of the Natural Sciences and Engineering Research Council of Canada (NSERC).
- Referee for the evaluation of young research projects for the program “Rita Levi Montalcini” 2020 on behalf of the Italian Ministry of Education, University and Research.
- Referee for the evaluation of research projects for the program Progetti di ricerca di Rilevante Interesse Nazionale PRIN 2020 on behalf of the Italian Ministry of Education, University and Research.
- Evaluator for the CNR of projects of the Italian Ministry of Economic Development (MISE) within the Sustainable Growth Fund.
- Referee for the evaluation of research quality VQR 2011-2014 on behalf of the Italian Ministry of Education, University and Research.
- Referee for the evaluation of research projects Futuro in Ricerca FIRB 2013 on behalf of the Italian Ministry of Education, University and Research.
- Referee for the evaluation of research projects for the Visionair European infrastructure.
- Referee for several international conferences.

.....

Academic committees

He participated to:

- Jury commission for the selection of a junior researcher (RTD-A) in Electronic and Computer Bioengineering (ING-INF/06), University of Bergamo, winter 2022.
- Jury commissions for the selection of various post-doc positions, University of Bergamo and National Research Council of Italy.

.....

Engineering profession

He is member of the Ordine degli Ingegneri della Provincia di Milano (Section A – Registration number 27094 a,b,c).

.....

Awards

He received:

- Honorable mention at the AIRO Young Best Presentation Award 2025 for the contribution *Scheduling blood components production: a real-life case study* presented by A. Gürsoy and authored by A. Gürsoy, R. Pinto, F. Piccinini, D. Ghezzi, L. Veronese, E. Volpato, S. Rossini and E. Lanzarone. 9th AIRO (Associazione Italiana di Ricerca Operativa) Young Workshop 2025, Pavia, Italy, February 2025.
airoyoung.airo.org
- Steve Gallivan Award for the contribution *A scheduling tool for the production of blood components* presented by A. Gürsoy and authored by A. Gürsoy, R. Pinto, F. Piccinini, D. Ghezzi, S. Rossini and E. Lanzarone. ORAHS 2024 Conference, Turin, Italy, July 2024.
orahs.di.unito.it/awards.html
- Steve Gallivan Award for the contribution *A decision-making tool for the location, districting and dimensioning of Community Houses in Lombardy, Italy* presented by M. Doneda and authored by M. Doneda, E. Lanzarone, A. Barbato, C. Franchi, S. Mandelli, A. Nobili and G. Carello. ORAHS 2023 Conference, Graz, Austria, July 2023.
orahs.di.unito.it/awards.html

- Finalist for the Healthcare Automation Award 2019 for the contribution *A variable neighborhood search for home care scheduling under chargeable overtime and preference matching* presented by A. Matta and authored by Y. Zhu, A. Matta, E. Lanzarone and N. Geng.
IEEE CASE 2019 Conference, Vancouver, Canada, August 2019.
www.ieee-ras.org
- Honorable mention as one of the three finalist papers for the INCOM Best Paper Award 2018 for the contribution *A data-driven districting to improve emergency medical service systems* presented by E. Lanzarone and authored by F. Regis-Hernández, E. Lanzarone, V. Bélanger and A. Ruiz.
IFAC INCOM 2018 Conference, Bergamo, Italy, June 2018.
www.ifac-control.org
- Finalist for the Italian Operations Research Association (AIRO) award on Operations Research for Social with the contribution *An appointment scheduling framework to balance the production of blood bags from donation* presented by E. Lanzarone and authored by E. Lanzarone, S. Baş, G. Carello and S. Yalçındağ.
AIRO 2016 Conference, Trieste, Italy, September 2016.
www.airo.org
- Italian National Bioengineering Group (GNB) award for Master Degree Thesis.
XXIII Annual School of Bioengineering, Brixen, Italy, September 2004.
www.bioing.it

May 13, 2025
